

Parts List

1. (2) Side Brackets
2. (3) Bolts
3. (1) Nut
4. (4) Flat Washers
5. (3) Lock Washers
6. (4) 10mm Spacers
7. (2) 36" Bars
8. (3) 29" Bars
9. (2) Wheels with nylock nuts
10. (2) Locking wheels with nylock nuts
11. (1) 13mm Wrench
12. (1) Soft Cover

Tools Required

13mm, 17mm Wrenches

1. Take one 29" bar and loosely fasten it across the top parts of the "L" brackets using two bolts and lock washers.
2. Form an "X" with the two 36" bars and loosely fasten it with the bolt, lock washer and nut through the center hole.
3. Insert spacers on the wheel bolts and through the 4 holes in the "X" bars.
4. Place the "L" bracket on top of the "X" bars, aligning the holes with the wheel bolts.
5. Take the two 29" bars and place it on top of the "L" brackets into the wheel bolts.
6. Place the four flat washers and nylock nuts on the wheel bolts.
7. Tighten all nuts and bolts. Use the supplied 13mm wrench to hold the base of the wheel bolts.
